

Dear FCC

Please reconsider your decision to let Sinclair force their stations to air the openly one-sided political movie "Stolen Honor". Such one sidedness by a media conglomerate undermines the whole American concept of a free and independent press. This is clearly special interests using public instruments for ulterior motives. This sets a very bad precedent from which it will be hard to retreat in the future. For the sake of our democracy you should intervene to stop this usurpation. Thank you.

Chris Cotney
